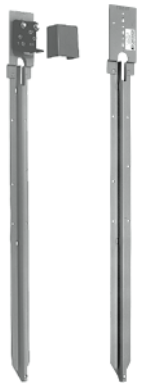
# Mounting Posts

*MHP*
*Mobile Home Post*



*PMP*
*Protector Mounting Post*

## Description

The mobile home post (MHP) is a heavy-gauge three position U-shaped channel post on which a 3.5 x 20.0-inch adjustable multi-position mounting plate is attached. The mounting plate provides universal mounting slots that will accept a variety of Network Interface Devices and station protectors. The elongated oval service wire holes help eliminate any sharp bending of service wires as they exit from behind the mounting plate to the protector unit. The slots provided in the channel posts are used for cable ties to help secure service wires inside the U-shaped channel.

The PMP posts are designed for mounting one or two-pair station protection. The posts are manufactured of heavy gauge mill-galvanized steel, treated with a unique gray-green finishing process for longer life.

## Application

The MHP is designed for mounting one or more Network Interface Device or station protector in mobile home parks or anywhere a mobile home trailer is used and buried service wires are used to provide telephone or CATV service. This design replaces our two current mounting posts.

## Ordering Information

| Catalog Number | Part Number | Description |
|---|---|---|
| MHP | F602202 | Multi-position mobile home post, adjustable to 36.5", 42.5" and 48.5" |
| MHP36 | F602190 | 36" fixed position mobile home post |
| MHP48 | F602200 | 48" fixed position mobile home post |
| PMP38 | F604370 | Protector mounting post, 38", 3" x 5-1/2" mounting plate |
| PMP50 | F604380 | Protector mounting post, 50", 3" x 5-1/2" mounting plate |
